

MOTION BY SUPERVISOR DON KNABE

November 1, 2005

Many healthcare professionals have been relocated or displaced due to the various natural disasters impacting our country. To the extent possible, we should extend an invitation to these individuals to allow them to use their valuable skills in Los Angeles County.

Medical associations, such as the Los Angeles County Medical Association, could work with component medical associations to determine the feasibility of affected medical personnel who may be interested in working in the County's healthcare system.

I, THEREFORE, MOVE, that the Board of Supervisors instruct the Director of Health Services to work with the Department of Human Resources and the Los Angeles County Medical Association to determine the feasibility of providing a "fast track" hiring mechanism for displaced medical professionals along with any other recommendations and report back in 30 days.
